4014: MERIT, PROMOTION, APPRAISAL REVIEW

There is no automatic advancement from one title to another in this series. Classification is determined by assigned duties and individual academic level.

No change in title can occur for a given semester after the beginning of that semester.

Per [APM-410-25.a](#), “all candidates for appointment and reappointment should be subjected to careful review and recommendation, either by the department as a whole or by a responsible committee.”
